

SPRING CREEK 319 PROJECT SEGMENT I – RIPARIAN APPLICATION RANKING SUMMARY

Name: _____ Application Number: (*office use only*) _____

Location/Project Area: _____

1. Size/Length of Area Needing Treatment: (select all that apply)

Size of project area is equal to or greater than 5 acres – (25 points) _____

Length of improved riparian area is equal to or greater than 500 feet – (25 points) _____

2. Location of Area Needing Treatment: (select one of the following)

Location is greater than 300 feet and within 1,000 feet of Spring Creek or any tributary – (25 points) _____

Location is within 100 feet of an intermittent tributary to Spring Creek – (50 points) _____

Location is greater than 100 feet and within 300 feet of Spring Creek or a perennial tributary – (75 points) _____

Location is within 100 feet from Spring Creek or a perennial tributary – (100 points) _____

3. Riparian Vegetation and Streambank Stabilization Improvements (select all that apply)

Stream bank stabilization and bioengineering treatments will be installed on eroding and/or unstable reaches of Spring Creek or a perennial tributary – (25 points) _____

Riparian vegetation buffers will be planted, restored and/or established – (50 points) _____

Access of animals, people, vehicles, and equipment will be excluded and controlled from riparian areas, not including routine operation and maintenance – (75 points) _____

4. Livestock and Manure Management Improvements (select all that apply)

Prescribed grazing system will be implemented which reduces use of riparian areas but allows rotational grazing with a minimum of 12 months deferment – (25 points) _____

Animal watering facilities will be developed at least 300 feet away from rivers, creeks, lakes, wetlands, or riparian areas – (50 points) _____

A waste storage facility, diversions, and/or a nutrient management plan will be implemented which reduces or eliminates runoff from animal feeding or concentration areas – (100 points) _____

Applicant will agree to participate and/or grant permission to sample water quality above and below the completed project area – (25 points) _____

RANKING SUMMARY

1. Size/Length of Area Needing Treatment	Subtotal _____
2. Location of Area Needing Treatment	Subtotal _____
3. Riparian Vegetation and Streambank Stabilization Improvements	Subtotal _____
4. Livestock and Manure Management Improvements	Subtotal _____
	Total _____
